Med-Legal(MLFS)

Recently, we've had some clients reach out to us regarding the new med-legal fee schedule(MLFS) guidelines that went into effect on April 1, 2021. The new MLFS regulations adds a layer of attention to compliance and requires a closer look at the regulations that apply to all evaluations taking place on or after April 1, 2021. We will be talking more about this on our September webinar. In the meantime, below are some take-aways that address and anticipate some of how AA's may strategize.

Take Aways

- Applicants are aware of fee schedule and additional costs associated with it.
- Applicants will use the significant costs as leverage to increase settlements.
- Applicants will seek to include 2 or more types of injuries (orthopedics, psyche, internal, neurological, etc.) to increase Medical Legal costs and result in compounded costs.
- Applicants will want to ensure ALL records are sent to the AME/QME for evaluation and send records themselves.
- Applicants will make conscious attempts to issue subpoenas for all prior records, even those that may not have much significance in the hope to use those records as leverage to send to an AME/QME with the increased page count.

•Older workers may have significantly more medical history and records to subpoena. This may add up costs significantly.
